## SUMMARY

An app developer and vibe code specialist (sometimes cleanup crew). I have built fast, scalable, and clean apps with reusable code that has handled thousands of users. I'm into optimizing solutions, tackling challenges and turning spaghetti code into smooth, scalable apps!

## EXPERIENCE

### iOS Developer

**SI (Sportz Interactive)** **February 2026 - Present, Mumbai (Hybrid)**

- Worked on high traffic, high stakes projects like **Ferrari, F1, UEFA etc**
- Collaborated with international teams w.r.t optimizing and ideation
- Delivering critical tags through CI/CD
- Worked on localization and **multiple language support** (including RTL integration)
- Leveraged top AI models to speed up work flows

### Consultant - iOS Developer

**Viral Fission** **July 2023 - Present, Mumbai (Hybrid)**

- Developed and maintained the **Vi-Fi application** with thousands of active users.
- Integrated latest SwiftUI practices to the UIKit MVVM architecture resulting in a more cleaner codebase.
- Worked on rapid feature delivery using **Agile and Scrum** while collaborating with designers and backend teams
- App Store link: https://apps.apple.com/in/app/vi-/id1541174634

### Software Engineer

**Payed International (By Sahara India)** **May 2022 - July 2023, Mumbai (On-site)**

- Handled **rapid user growth** (zero to thousands in months) by writing scalable and efficient code.
- Collaborated with external vendors to integrate new features, working across both native **iOS (Swift/SwiftUI) and Flutter** environments.
- Conceptualized and implemented a complex location-based notification system for the e-commerce app.
- Independently developed and launched a business app for vendors, which featured **real-time data tracking** and a clear MVVM architecture.

### Software Developer - Lead Intern

**Zymo (Formerly LetzRent)** **May 2020 - April 2022, Mumbai (Remote)**

- Developed and actively maintained the Zymo app with over 50K+ downloads and a 4.7+ rating for both Android & iOS from scratch.
- Developed a backend panel for monitoring incoming bookings and real-time users.
- Implemented analytical tools in the app for capturing events and user behaviour.

## EDUCATION

### Master of Science, Computer Science with Specialization in Data Science

University of Mumbai • 2024 • Ranked 2nd

### Bachelor of Science, Computer Science

University of Mumbai • 2022 • 9.15

## SKILLS

FrontEnd: Swift, SwiftUI, UIKit, Auto Layout, Storyboard, Material3, Flutter (iOS, Android & Web), WatchOS
BackEnd: NodeJS, ExpressJS, GraphQL, SQL, Firebase, MongoDB, AWS
Frameworks: Firestore, FCM, OneSignal, SendbirdChat, ARKit, Alamofire, Kingfisher, Crashlytics, SwiftData, MapKit, CoreML, Lottie and more!
